Nil					

Any restrictions or impediments on transfer of funds or regulatory capital within the banking group: Nil

(ii) Quantitative Disclosure: Nil

TABLE DF 2- CAPITAL ADEQUACY

Qualitative disclosures:

Basel- III guidelines issued by RBI

Reserve Bank of India had issued Guidelines based on the Basel III reforms on capital regulation in May 2012, to the extent applicable to Banks operating in India. The Basel III capital regulation has been implemented from April 1, 2013 in India and the Bank is subject to the compliance with the regulatory limits and minimum CRAR prescribed under Basel III Capital Regulation on an ongoing basis. The Basel III Capital Regulations have been consolidated in Master Circular RBI/2025-26/08 DOR.CAP.REC.2/21.06.201/2025-26 – Master Circular- Basel III Capital Regulations dated April 01, 2025.

Basel III Capital regulations continue to be based on 3 mutually reinforcing Pillars viz, Minimum Capital requirements (Pillar I), Supervisory Review and Evaluation Process (Pillar II) and Market Discipline (Pillar III). The circular also prescribes the risk weights, for the Balance Sheet assets, non-funded items and other off Balance Sheet exposures and the minimum Capital Funds to be maintained as a ratio to the aggregate of the Risk Weighted Assets (RWA) and other exposures, as also, capital requirements in the Trading book, on an ongoing basis and Operational risk. The Basel-III norms mainly seek to:

- a) Raise the quality of capital to ensure that the Banks are capable to absorb losses on both as going concern and as gone concern basis,
- b) Increase the risk coverage of the capital framework
- c) Introduce Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR) and Leverage Ratio to serve as a backstop to the risk-based capital measure.
- d) Raise the standards for the Supervisory Review and Evaluation Process and Public Disclosures etc.

The macro prudential aspects of Basel III are largely enshrined in the capital buffers, viz., Capital Conservation Buffer and Counter Cyclical Capital Buffer. Both the buffers are intended to protect the Banking sector from stress situations and business cycles. The Capital Conservation Buffer requirements started from March 31, 2016 and are fully implemented by October 1, 2021.

Summary

(i) Tier I Capital: Tier I capital of the Bank includes

- Equity Share Capital
- Reserves & Surpluses comprising of

- ❖ Statutory Reserves,
- ❖ Capital Reserves,
- ❖ Share Premium and
- ❖ Balance in P&L Account
- ❖ Revaluation Reserves
- ❖ Special Reserves

(a) Common Equity Tier I

The Bank has authorized share capital of Rs. 500 Cr, comprising 50 Cr equity shares of Rs.10/- each. As on September 30, 2025, the Bank has Issued, Subscribed and Paid-up capital of Rs.394,69,88,510/-, constituting 39,46,98,851 Equity shares of Rs. 10/- each. The Bank's shares are listed on the National Stock Exchange of India Limited (NSE) and the Bombay Stock Exchange Limited (BSE).

(b) Additional Tier I Capital

As on September 30, 2025 the Bank does not have Additional Tier I Capital.

(ii) Tier 2 Capital includes Investment Fluctuation Reserves, Standard Asset Provisions, Provision for Restructured Standard Assets & Advances and Tier II Bonds.

Debt Capital Instruments:

The Bank has been raising capital funds by means of issuance of Upper Tier 2 Bonds and Subordinated Bonds. The details of eligible Upper Tier 2 and Subordinated Debt (Unsecured Redeemable Non-Convertible Subordinated Bonds in the nature of Promissory Notes/ Debentures) issued by the Bank and outstanding as on September 30, 2025, are given below. The Bonds considered in computation of Tier 2 Capital is as per the criteria for inclusion of Debt Capital Instruments as Tier 2 Capital detailed in the Basel III Master Circular.

Rs. in Cr

Series	Coupon (%)	Date of Allotment	Maturity Date	Amount of Issue
INE680A08089	Payable Yearly @ 10.50%	07.04.2025	06.04.2035	150.00

Quantitative Disclosures:

Risk exposure and assessment

Besides computing CRAR under the Pillar I requirement, the Bank also periodically undertakes Stress Testing in various risk areas to assess the impact of stressed scenario or plausible events on asset quality, liquidity, profitability and capital adequacy. The Bank conducts Internal Capital Adequacy Assessment Process (ICAAP) on annual basis to

assess the sufficiency of its capital funds to cover the risks specified under Pillar II of Basel guidelines. The adequacy of Bank's capital funds to meet the future business growth is also assessed in the ICAAP Document. Capital requirement for current business levels and framework for assessing capital requirement for future business levels has been made. Capital requirement and Capital optimization are monitored periodically by the Committee of Senior Management (ALCO). The Senior Management deliberates on various options available for capital augmentation in tune with business growth. Based on these reports submitted by Senior Management, the Board of Directors evaluates the available capital sources, forecasts the capital requirements and capital adequacy of the Bank and ensures that the capital available for the Bank at all times is in line with the Risk Appetite of the Bank.

Composition of Capital as on 30.09.2025

Items	Rs. in Crs
Paid-up Share Capital	394.70
Reserves	1602.36
Common Equity Tier 1 Capital before deductions	1997.06
Less amounts deducted from Tier I capital (Accumulated losses, DTA , Intangible Assets, AFS reserves, Unrealized Gain on Level 3 Instruments included in Reserves and Valuation Adjustments on Illiquid securities).	770.75

Tier 2 CRAR (%)	2.76%
Total CRAR % for the Bank	17.81%

Structure and Organisation of the Risk Management function in the Bank

Risk exposure and assessment

The Bank has adopted an integrated approach for the management of risk. The Bank's Integrated Risk Management Department (IRMD) is the organisational arm for risk management functions. The Bank has developed a comprehensive risk rating system that serves as a single point indicator of diverse risk factors of counterparty and for taking credit decisions in a consistent manner. Major initiatives of IRMD are –

- Risk rating system is drawn up in a structured manner incorporating the parameters from the 5 main risk areas 1) Financial Risk, 2) Industry/ Market Risk, 3) Business Risk, 4) Management Risk, and 5) Facility risk
- Risk rating system is made applicable for loan accounts with total limits of Rs.2 lakhs and above.
- Different Rating Models are used for different types of exposures, for eg. Traders, SME, NBFC, Corporate, Small Loans, Retail Loans etc.
- IRMD validates the ratings of all exposures of Rs.100 lakhs and above.
- An independent analysis is carried out of the various risks attached to the credit proposals including industry analysis.
- Rating Migration analysis covering all exposures of Rs.5 Cr and above is conducted on quarterly basis and migration analysis of exposures of Rs.1 Cr & above is conducted on a half yearly basis. Rating Migration analysis covering all exposures of Rs.25 lakhs and above is conducted on annual basis; Evaluates the asset quality by tracking the delinquencies and migration of borrower from one rating scale to another.

Credit facilities are sanctioned at various levels in accordance with the delegation approved by the Board. The Bank has in place the following hierarchical functionaries with delegated powers for credit sanction and administration:

- Branch Head with Assistant Branch Manager, jointly,
- Regional Credit Committee (RCC)
- Corporate Credit Committee (CCC)
- Corporate Credit Committee1 (CCC1)
- Credit and Business Committee of the Board (CBCB)
- Board of Directors

Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants

The Bank has put in place a Board approved Policy on Credit Risk Mitigation Techniques and Collateral Management, covering the Credit Risk mitigation techniques used by the Bank for both risk management and capital computation purposes. Apart from the Basel defined collateral, the Bank ensures securities by way of inventories, Book Debts, Plant & Machineries, Land & Buildings and other moveable/ immovable assets/ properties. The Bank also accepts Personal/ Corporate guarantee as an additional comfort for Credit Risk mitigation. The securities are subjected to proper valuation as prescribed in the Credit Policy of the Bank.

Bank has laid down detailed guidelines on documentation to ensure legal certainty of Bank's charge on collaterals. In order to ensure that documents are properly executed, the function has been brought under the purview of Credit Officers. The Credit Officers at

branches ensure documentation, ground level follow up, collection of feedback, closer monitoring of accounts, quality of asset portfolios, statistical analyses, reporting of irregularities, providing guidelines, compliance with policy prescriptions and adherence to terms of sanction.

The Bank has an exclusive set up for Credit Monitoring functions in order to have greater thrust on post sanction monitoring of loans and strengthen administering the various tools available under the Bank's policies on loan review mechanism. For effective loan review, the Bank has the following in place: -

- On site monitoring tools like Inspection of Assets/ Books/ Stock of the borrower, Stock audit, Operations in the account, Payment of statutory dues etc.
- Recording of loan sanctioned by each sanctioning authority by the next higher authority.
- Offsite monitoring tools like Financial Follow-up Reports, verification of various statutory returns, Audit Reports etc.

TABLE DF 3 – CREDIT RISK: GENERAL DISCLOSURES

Qualitative disclosures:

(a) General: -

Definitions of Past Due and Impaired (for accounting purposes)

The Bank has adopted the definition of the Past Due and Impaired (for accounting purposes) as defined by the Regulator for income recognition and these asset classification norms are furnished below: -

1. Non-Performing Assets

An asset, including a leased asset, becomes non-performing when it ceases to generate income for the bank.

A non-performing asset (NPA) is a loan or an advance where;

- a) interest and/ or installment of principal remains overdue for a period of more than 90 days in respect of a term loan,
- b) the account remains 'out of order' as indicated at paragraph 2 below, in respect of an Overdraft/ Cash Credit (OD/ CC),
- c) the bill remains overdue for a period of more than 90 days in the case of bills purchased and discounted,
- d) the installment of principal or interest thereon remains overdue for two crop seasons for short duration crops,

- e) the installment of principal or interest thereon remains overdue for one crop season for long duration crops,
- f) the amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitisation transaction undertaken in terms of the Reserve Bank of India (Securitisation of Standard Assets) Directions, 2021.
- g) in respect of derivative transactions, the overdue receivables representing positive mark-to-market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

In addition, an account may also be classified as NPA in terms of any temporary deficiencies as defined by the Regulator.

2. 'Out of Order' status: An account is treated as 'Out of Order' if the outstanding balance in the CC/OD account remains continuously in excess of the sanctioned limit/drawing power for 90 days, or the outstanding balance in the CC/ OD account is less than the sanctioned limit/drawing power but there are no credits continuously for 90 days, or the outstanding balance in the CC/ OD account is less than the sanctioned limit/ drawing power but credits are not enough to cover the interest debited during the previous 90 days period.

3. 'Overdue':

Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the bank. The borrower accounts shall be flagged as overdue by the banks as part of their day-end processes for the due date, irrespective of the time of running such processes.

Strategies and Processes for Credit Risk Management

Credit Risk Management Committee (CRMC) headed by MD & CEO is the highest-level executive committee for Credit Risk management. The committee considers and takes decisions necessary to manage and control Credit Risk within overall quantitative prudential limit set up by Board. The committee is entrusted with the job of recommending to the Board for its approval, clear policies on standards for presentation of credit proposals, fine-tuning required in various rating models based on feedbacks or change in market scenario, approval of any other action necessary to comply with requirements set forth in Credit Risk Management Policy/ RBI guidelines or otherwise required for managing credit risk.

The Bank's strategies to manage the credit risks in its lending operations are as under:

- a) The Bank has a Comprehensive Board Approved Credit Risk Management Policy which is reviewed and revised annually. In addition to the above, various strategies with regard to Credit Risk management are covered under Bank's Credit Policy, Credit Monitoring Policy and Recovery Policy which are periodically reviewed by the Board.

- b) Defined segment exposures are delineated into Retail, SME and Corporates
- c) Industry wise exposure caps on aggregate lending by Bank
- d) Individual borrower wise caps on lending as well as borrower group wise lending caps linked as a percentage to the Bank's capital funds in line with RBI guidelines.
- e) Credit rating of borrowers and allowing credit exposures only to defined thresholds of risk levels
- f) A well-defined approach to sourcing and preliminary due diligence while sourcing fresh credit accounts
- g) A clear and well-defined delegation of authority within the Bank with regard to decision making, linking exposure, rating and transaction risks.
- h) Regular review of all credit structures and caps, continuously strengthening credit processes, and monitoring oversight which are regularly reviewed and duly approved by the Board of the Bank.
- i) Credit Risk Management Cell is validating the rating assigned to all individual credit exposures of Rs100 Lakh and above.
- j) Bank has an ever-improving procedures and structures with respect to Credit Approval Process, Credit Rating, Prudential Limits, Documentation, Credit Monitoring and Review Mechanism.
- k) Credit Audit System by Internal/ External Auditors has been put in place for all Rs.1Cr and above advances. For all loans/ advances of aggregate sanctioned amount of Rs.1 Cr and above, Credit Audit is conducted within 30 days from the date of disbursement. For Takeover accounts of Rs.1 Cr and above, Credit Audit is conducted within 15 days from the date of disbursement and one more Credit Audit is conducted in the immediate succeeding year. In respect of standard accounts with fund based working capital limit of Rs.3 Cr and above and in respect of standalone Term loans of Rs.5 Cr and above, Credit audit is conducted every year.
- l) Legal Audit is conducted for all eligible loan accounts having an exposure of Rs.1 Cr and above mandatorily. In respect of advances of Rs.1 Cr and below Rs.5 Cr, Legal Audit is conducted as a onetime measure and in respect of advances of Rs.5 Cr and above, Legal Audit is conducted every year.
- m) The review of accounts is usually done once in a year. But in case of deterioration of the quality of advance the frequency of review is shortened to half yearly or quarterly as per the case.
- n) The Credit Officers at branch level take care of the security creation and account management
- o) Credit Monitoring Department monitors the performance of loan assets of the Bank.
- p) Bank also carries out industry study which would provide necessary information to Business line to increase/ hold/ decrease exposure under various industries. Bank has implemented a well defined Early Warning Signal (EWS) framework for credit exposures above Rs 1 Cr and above.

Quantitative disclosures:

- (a) Total Gross Credit exposures as on 30th September 2025: (After accounting offsets in accordance with applicable accounting regime and without taking into account the effects of credit risk mitigation techniques e.g. Collateral and Netting)

Overall credit exposure		Amount	Total
		(In Cr)	(In Cr)
Fund Based	Loans & advances	13041.14	14827.88
	Cash, RBI and Banks	901.16	
	Others (Fixed Assets & other Assets)	885.58	
Non-Fund Based	LC, BG etc	269.06	1370.97
	Forward Contracts/ Interest rate SWAPS	214.88	
	Others	887.03	
Investments (Banking Book only)	--	4601.01	4601.01

Table DF 4 DISCLOSURES FOR PORTFOLIOS SUBJECT TO THE STANDARDISED APPROACH

Qualitative disclosures:

(a) For Portfolios under the Standardised Approach

1	Names of credit rating agencies used	Bank has approved all the External Credit Rating agencies accredited by RBI for the purpose of credit risk rating of domestic borrowal accounts, i.e. ACUITE Rating & Research Ltd (Acuite), Brickwork Ratings India Private Limited, CARE Ratings Ltd, CRISIL Ratings Ltd, ICRA Limited, India Ratings and Research Pvt. Ltd. (India Ratings), INFOMERICS Valuation and Rating Ltd (INFOMERICS) and International Credit Rating
----------	--------------------------------------	--

		agencies, i.e, FITCH, Moody's and Standard and Poor's.
2	Changes if any, since prior period disclosure in the identified rating agencies and reasons for the same.	No change
3	Types of exposure for which each agency is used	<p>The External Credit Rating assigned by an agency is considered only if it fully takes into account the credit exposure of the Bank.</p> <p>Bank is entitled to use the ratings of all the above identified Rating Agency rating for various types of exposures as follows:</p> <p>(i) For Exposure with a contractual maturity of less than or equal to one year (except Cash Credit, Overdraft and other Revolving Credits), Short -Term Rating given by ECRA will be applicable</p> <p>(ii) For Domestic Cash Credit, Overdrafts and other Revolving Credits (irrespective of the period) and/ or Term Loan exposures of over one year, Long Term Rating will be applicable.</p> <p>(iii) For Overseas exposures, irrespective of the contractual maturity, Long Term Rating given by IRAs will be applicable.</p> <p>(iv) Rating by the agencies is used for both fund based and non-fund based exposures.</p> <p>(iv) Rating assigned to one particular entity within a corporate group cannot be used to risk weight other entities within the same group.</p>
4	Description of the process used to transfer public issue rating on to comparable assets in the Banking book.	Long –term Issue Specific (our own exposures or other issuance of debt by the same borrower-constituent/ counter-party) Ratings or Issuer (borrower-constituent/ counter-party) Ratings can be applied to other unrated exposures of the same borrower-constituent/ counterparty in the following cases:

	(i) If the Issue Specific Rating or Issuer Rating maps to Risk Weight equal to or higher than the unrated exposures, any other unrated exposure on the same counter-party will be assigned the same Risk Weight, if the exposure ranks paripassu or junior to the rated exposure in all aspects
	(ii) In cases where the borrower-constituent/ counter-party has issued a debt (which is not a borrowing from our Bank), the rating given to that debt may be applied to Bank's unrated exposures if the Bank's exposure ranks paripassu or senior to the specific rated debt in all respects and the maturity of unrated Bank's exposure is not later than Maturity of rated debt.

Quantitative disclosures

Amount of Bank's outstanding in major risk buckets- under standardised approach after factoring risk mitigants (i.e., collaterals) (includes Banking Book exposure of Investments):

(Rs. in Cr)	
Particulars	Total
Below 100% risk weight	11352.28
100% risk weight	2390.77
More than 100% risk weight	871.25
Total Net Exposure	14614.29

TABLE DF 5 –CREDIT RISK MITIGATION- STANDARDISED APPROACH

Qualitative Disclosure:

(a) General

Policies and processes for collateral valuation and management:

The Bank has put in place a Board approved policy on Credit Risk Mitigation Techniques and Collateral Management, covering the Credit Risk mitigation techniques used by the Bank for both risk management and capital computation purposes.

A description of the main types of collateral taken by the Bank

Collateral used by the Bank as risk mitigants for capital computation under Standardised Approach comprise eligible financial collaterals namely: -

- Cash and fixed deposits of the counterparty with the Bank.
- Gold: value arrived at after notionally converting these to 99.99% purity.

- Securities issued by Central and State Governments.
- Kisan Vikas Patra and National Savings Certificates provided no lock-in period is operational and if they can be encashed within the holding period.
- Life Insurance Policies restricted to their surrender value.
- Debt securities rated by an approved Credit Rating Agency.
- Unrated Debt securities issued by Banks, listed in Stock Exchange.
- Units of Mutual Funds.

Bank has no practice of ‘On Balance Sheet’ netting for Credit Risk Mitigation.

The main types of Guarantor Counterparty and their creditworthiness

Bank accepts guarantees of Individuals or Corporates with adequate Net Worth, as an additional comfort for mitigation of credit risk which can be translated into a direct claim on the guarantor and are unconditional and irrevocable. Main types of guarantor counterparty as per RBI guidelines are: -

- Sovereigns (Central/ State Governments)
- Sovereign entities like ECGC, CGTMSE, CGFMU, CGFSEL, CRGFTLIH, NCGTC.
- Bank and Primary Dealers with a lower risk weight than the counterparty
- Other entities rated AA (-) and above. The Guarantees has to be issued by entities with a lower risk weight than the counterparty.

Information about risk concentrations of collaterals within the mitigation taken as on 30.09.2025:

Financial Risk Mitigants	Outstanding Covered by Risk Mitigants (In Cr)	Risk Concentration %
Gold	4442.17	88.61%
Cash & Deposits	564.48	11.26%
KVP/ IVP/ NSC	1.02	0.02%
LIC Policy	5.70	0.11%
Total	5013.38	100.00%

Majority of the financial collaterals held by the Bank are by way of Gold, own Deposits, Life Insurance Policies and other approved securities. Bank does not envisage market liquidity risk in respect of financial collaterals.

Concentration on account of collateral is also relevant in the case of Land & Building. However, as Land & Building is not recognised as eligible collateral under Basel III Standardised Approach, its value is not reduced from the amount of exposure in the process of computation of capital charge. It is used only in the case of Housing Loan to

individuals and Non Performing Assets to determine the appropriate risk weight. As such, there is no concentration risk on account of nature of collaterals.

Quantitative Disclosures:

For the disclosed Credit Risk portfolio under the Standardised Approach, the total Exposure that is covered by:

(i) Eligible Financial Collateral	: Rs. 5013.38 Cr
(ii) Other eligible Collateral (after Hair Cuts)	: Rs. Nil

TABLE DF 6- SECURITISATION – STANDARDISED APPROACH:

TABLE DF7 - MARKET RISK IN TRADING BOOK- STANDARDISED DURATION APPROACH:

Qualitative Disclosures:

(a) **General : -**

Strategies and processes

The overall objective of Market Risk management is to maximise shareholder value by improving the Bank’s competitive advantage and reducing loss from all types of market risk loss events. For effective management of Market Risk, Bank has put in place a well-established framework with the Integrated Treasury Management Policy, Market Risk Management Policy and Asset Liability Management Policy. The Asset Liability Management Committee is responsible for establishing Market Risk management and Asset Liability management in the Bank. ALCO is a decision-making unit responsible for Balance Sheet planning from risk return perspective including the strategic management of Interest Rate and Liquidity Risks. ALCO ensures adherence to the limits set by RBI as well as the Board.

Scope and nature of risk reporting/ measurement systems

The Bank has put in place regulatory/ internal limits for various products and business activities relating to Trading book. Various exposure limits for Market Risk management such as Overnight limit, VaR limit, Daylight limit, Aggregate/ Individual Gap limit, Investment limits etc. are in place. The reporting system ensures time lines, reasonable accuracy with automation, highlight Portfolio risk concentrations and include written analysis. The reporting formats and frequency of reporting are periodically reviewed to ensure that they suffice for risk monitoring, measuring and mitigation requirements of the Bank. Bank also subjects Non SLR investments to credit rating.

Policies for hedging/ mitigating risk and strategies and processes for monitoring the continuing effectiveness of Hedges/ Mitigants:

Board approved policies viz., Integrated Treasury Management Policy and Asset Liability Management Policy provides the framework for risk assessment, identification, measurement and mitigation, risk limits & triggers, risk monitoring and reporting.

Liquidity risk of the Bank is assessed through Structural Liquidity Statement which is prepared on a daily basis. The Bank also reviews various Liquidity Ratios on a monthly basis in order to control the liquidity position. On monthly basis, Interest Rate Risk is analyzed from earnings perspective using Traditional Gap Analysis and economic value perspective using Duration Gap Analysis. Stress Tests are conducted at quarterly intervals to assess the impact of various contingencies on the Bank's earnings and the capital position.

The Bank uses Standardised Duration Approach for computation of Market Risk Capital charge on the Investment Portfolio held under HFT and AFS, Gold and Forex Open positions. The Market Risk Capital charge is calculated on a daily basis and reported to ALCO.

Quantitative Disclosures:

Particulars	Capital requirement for market risk- Standardised Duration approach 30.09.2025 (Rs. in Cr)
Interest Rate Risk	7.08
Equity position risk	0.10
Foreign exchange risk	2.48

TABLE DF 08- OPERATIONAL RISK:

Qualitative disclosures:

(a) General

Strategies and processes: The Bank's strategy is to ensure that (1) the Operational risks which are inherent in Process, People and System and (2) the residual risks, are well managed by the implementation of effective Risk management techniques. Keeping this in view, the Bank has been following risk management measures which address the risks before and after implementation of a Process, Product and System. Before all new Products, Processes and Systems are cleared by the Product & Process Approval Committee (PPAC), they are risk vetted by the Operational Risk Management (ORM) cell. The ORM cell has completed Risk & Control Self-Assessment (RCSA) of thrust branches and other core functions highlighting the potential risks that can happen during the course of operations and to assess whether the controls are adequate to manage/

mitigate these risks. Risk Based Internal Audit is in place in all the Branches. The Bank has a RCSA Document approved by the Risk Management Committee of the Board (RMCB) and Board.

The framework for Operational Risk Management is well defined in the Operational Risk Management (ORM) Policy which is reviewed and revised annually. The ORM Committee at the executive level, which meets at regular intervals oversees Bank wide implementation of Board approved policies and process in this regard. The Bank has put in place important policies like Information System Security Policy, Policy on Know Your Customer & Anti Money Laundering, Fraud Risk Management Policy, Business Continuity and Disaster Recovery Management Plan.

Scope and nature of risk reporting/ measurement systems: -

The Bank has adopted Operational Loss Data Reporting Format from the Loss Data Methodology Document for collection of Loss Data, which will enable the Bank to eventually ease the transition to Advanced Measurement Approach for Capital Calculation. The ORM cell has a well-built internal Loss Data collection system in place. The risk reporting consists of operational risk loss incidents/ events occurred in branches/ offices relating to people, process, technology and external events.

Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:

Internal control mechanism is in place to control and minimise the operational risks. If any controls are found to be ineffective during the course of Risk & Control Self-Assessment (RCSA), corrective measures are adopted in due course. A monitoring system is also in place for tracking the corrective actions plan periodically. Bank is using insurance for mitigating operational risk. The various Board approved policies viz., Operational Risk Management Policy, Outsourcing Policy, Compliance Policy, Audit & Inspection Policy, Internet Banking Security Policy; Policy on KYC & AML; Information Systems Security Policy and Business Continuity Plans addresses issues pertaining to Operational Risk Management.

Operational Risk Capital assessment:

The Bank has adopted Basic Indicator Approach for calculating capital charge for Operational Risk, as stipulated by the Reserve Bank of India. The ORM Cell is focusing on the qualitative and quantitative requirements (RCSA, KRI identification, Business Line mapping etc) prescribed by the regulator and these are being adopted by the Bank to move on to the Advanced Approaches in due course.

TABLE DF 09- INTEREST RATE RISK IN THE BANKING BOOK (IRRBB):

(a) Qualitative Disclosures:

Strategies and processes

The Bank has put in place a comprehensive Market Risk management framework to address market risks. The Asset Liability Management Policy prescribes the measurement of the Interest Rate Risk under two perspectives – Earnings Perspective and Economic Value Perspective.

Under Earnings perspective, Bank uses the Traditional Gap Analysis method to calculate the Earnings at Risk (EaR), which is the quantity by which net income might change in the event of an adverse change in interest rate. EaR is calculated on a fortnightly basis.

Under Economic Value Perspective, Bank uses Duration Gap Analysis to assess the impact of interest rate risk. The Duration Gap Analysis monitors the impact of changes in the interest rates on the Market Value of Equity (MVE). It is calculated on a monthly basis.

The framework for managing Interest Rate Risk on the Economic Value of Equity (EVE) under Pillar II of Basel III is put in place through ICAAP Policy Document.

Scope and nature of risk reporting/ measurement systems

Interest Rate Risk under Duration Gap Analysis is evaluated on a monthly basis. The likely drop in Market Value of Equity for a 200-bps change in interest rates is computed. Earnings at Risk based on Traditional Gap Analysis are calculated on a fortnightly basis and adherence to tolerance limits set in this regard is monitored and reported to ALCO. Stress Tests are conducted to assess the impact of Interest Rate Risk under different stress scenarios on earnings of the Bank.

Policies for hedging/ mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants

Bank has operationalised mitigating/ hedging measures prescribed by Treasury Management Policy, Asset Liability Management Policy and Stress Testing Policy. The strategy adopted by ALCO for mitigating the risk is by clearly articulating the acceptable levels of exposure to specific risk types (Interest Rate, Liquidity etc). The process for mitigating the risk is initiated by altering the mix of Asset and Liability composition and with the proper pricing of Advances and Deposits.

Brief description of the approach used for computation of Interest Rate risk

The traditional gap report is generated by grouping rate sensitive liabilities, assets and off-balance sheet positions into time buckets according to residual maturity or next repricing period, whichever is earlier and finding the gaps in each bucket. The gap is the difference between Rate Sensitive Assets (RSA) and Rate Sensitive Liabilities (RSL) for each time

bucket. Earning at risk (EaR) is measured as the quantity by which net income might change in the event of an adverse change in interest rates.

The Interest Rate Risk (EVE) is computed through Duration Gap Analysis. The step-by-step approach for computing Modified Duration Gap is as follows:

- i) Identify variables such as principal amount, maturity date/ re pricing date, coupon rate, yield, frequency and basis of interest calculation for each item/ category of Rate Sensitive Asset/ Rate Sensitive Liability (RSA/ RSL).
- ii) Plot each item/ category of RSA/ RSL under the various time buckets. For this purpose, the absolute notional amount of rate sensitive off Balance Sheet items in each time bucket are included in RSA if positive or included in RSL if negative.
- iii) The mid-point of each time bucket is taken as a proxy for the maturity of all assets and liabilities in that time bucket.
- iv) Determine the coupon and the yield curve for arriving at the yields based on current market yields or current replacement cost for computation of Modified Duration (MD) of RSAs and RSLs.
- v) Calculate the Modified Duration (MD) in each time band of each item/ category of RSA/ RSL using the maturity date, yield, coupon rate, frequency, yield and basis for interest calculation.
- vi) Calculate the Modified Duration (MD) of each item/ category of RSA/ RSL as weighted average Modified Duration (MD) of each time band for that item.
- vii) Calculate the weighted average Modified Duration (MD) of all RSA (MDA) and RSL (MDL) to arrive at Modified Duration Gap (MDG).

(b) Quantitative Disclosures

The impact on Earnings at Risk and Economic Value of Equity for notional interest rate shocks as on 30.09.2025.

Earnings at Risk

Change in interest rate	Change in NII (Rs. in Cr)
± 25 bps	7.35
± 50 bps	14.70
± 75 bps	22.04
± 100 bps	29.39

The Bank is computing Market Value of Equity based on Duration Gap Analysis.

For a 200 bps rate shock, the drop in equity value as on 30.09.2025	0.05%
--	--------------

Table DF -10: GENERAL DISCLOSURE FOR EXPOSURE RELATED TO COUNTERPARTY CREDIT RISK

Qualitative disclosures

Counterparty Credit Risk is the risk that the counterparty to a transaction could default before the final settlement of the transaction's cash flows. Bank has put in place Counterparty Credit Risk limits for banks as counterparty, based on a number of financial parameters like Net worth, capital adequacy ratio, rating etc of the counterparty bank and with the approval of the Board. Counterparty exposures for other entities are subject to comprehensive exposure ceilings fixed by the Board. Capital for Counterparty Credit Risk is assessed based on the Standardised Approach

Quantitative disclosures

The Bank does not recognise bilateral netting. The credit equivalent amounts of derivatives that are subjected to risk weighting are calculated as per the Current Exposure Method. The derivative exposure is calculated using Current Exposure Method and the balance outstanding as on September 30, 2025 is given below.

(Rs. in CR)

Particulars	Notional Amounts	Credit Equivalent
Forward Exchange Contracts	189.88	4.03

Table DF 15: DISCLOSURE REQUIREMENTS FOR REMUNERATION

Qualitative disclosures

a. Information relating to the composition and mandate of the Nomination & Remuneration Committee.

➤ **Composition**

The Board constituted a Remuneration Committee on 29.02.2008, which was reconstituted on 27.09.2008, 06.10.2009 and 28.02.2013. The Committee was renamed/reconstituted as Nomination & Remuneration Committee of the Board at its meeting held on 26.10.2015.

The committee comprises of Dr. Nirmala Padmanabhan as Chairperson, Shri K.N Madhusoodanan, Shri G Rajagopalan Nair, Ms Vardhini Kalyanaraman, Dr. Jineesh Nath C K and Shri. Ashutosh Khajuria as on 30.09.2025.

➤ **The terms of reference of the Nomination & Remuneration Committee are as follows: -**

1. Recommending to the Board for its consideration and approval on the size and composition of the Board taking into account the available and needed diversity and balance in terms of experience, knowledge, skills and judgment of the Directors;
2. Reviewing, from time to time, possible candidates for current and potential Board vacancies, including Directors who are to retire and are eligible for re-appointment or re- election and other persons who may be recommended by the Chairman or the MD&CEO or other Directors, shareholders or others;
3. Recommending to the Board, candidates for election (including re- election) or appointment (including reappointment) to the Board;
4. Carrying out evaluation of every Director's performance;
5. Deciding on the matter of whether to extent or continue the term of appointment of the Independent Director, on the basis of the report of performance evaluation of Independent Directors;
6. Identifying persons who are qualified to become Directors and who may be appointed in senior management in accordance with the criteria laid down, recommend to the Board their appointment and removal; formulation of the criteria for determining qualifications, positive attributes and independence of a Director;
7. Devising a policy on diversity of Board of Directors;
8. Recommending to the Board a policy relating to the remuneration for the Directors, Key Managerial Personnel and other employees;
9. Formulating and determining the Bank's policies on remuneration packages payable to the Directors and Key Managerial Personnel including Performance/ Achievement Bonus, Perquisites, Retirals, Sitting fees.
10. Considering grant of Stock Options to employees.
11. Reviewing the composition of the existing Committees of the Board.
12. Formulation of criteria for performance evaluation of Independent Directors and

the Board;

13. Validation of 'fit and proper' status of all Directors on the Board of the Bank in terms of the guidelines issued by the RBI or other regulatory authorities;
14. Developing and recommending to the Board the Corporate Governance guidelines applicable to the Bank for incorporating best practices from time to time.

b. Information relating to the design and structure of remuneration processes and the key features and objectives of Remuneration Policy.

Remuneration and other perquisites paid to the Managing Director & CEO and Executive Director are as approved by the Reserve Bank of India. Non-executive Directors are being paid sitting fees for each meeting attended by them. During the year, no remuneration, excepting sitting fees and reimbursement of actual travel and out-of-pocket expenses was paid.

The Bank has formed the Compensation Policy based on the Reserve Bank of India guidelines vide its circular DOR.Appt.BC.No.23/29.67.001/2019-20 dated 04/11/2019. The fixed remuneration and other allowances including retirement benefits of all subordinate, clerical and officers covering under IBA stream of employment is governed by the industry level wage settlement under Indian Banks Association (IBA) pattern. In respect of officers covered under Cost to the Company payment scheme, the overall salary will be pegged at 120% of IBA salary of corresponding grade. Officers appointed on contract basis are offered a fixed consolidated pay as determined by Board/Committee/ MD & CEO on a case-to-case basis.

c. Description of the ways in which current and future risks are taken into account in the remuneration processes. It should include the nature and type of the key measures used to take account of these risks.

The Board of Directors through the Nomination and Remuneration Committee of the Board shall exercise oversight and effective governance over the framing and implementation of the Compensation policy. Human Resource Management under the guidance of MD & CEO shall administer the Compensation and Benefit structure in line with the best suited practices and statutory requirements as applicable.

d. Description of the ways in which the Bank seeks to link performance during a performance measurement period with levels of remuneration.

The factors taken into account for the annual performance review are:

- The performance of the Bank
- The performance of the business unit
- Individual performance of the employee,
- Other risk perceptions and economic considerations

e. A discussion of the Bank's policy on deferral and vesting of variable remuneration and a discussion of the Bank's policy and criteria for adjusting deferred remuneration before vesting and after vesting.

- As of now Bank is not offering variable pay except for MD & CEO and Executive Director and hence no such deferral of variable pay is being offered to rest of the staff members.
- Employee Stock Option Scheme/ Employee Stock Option Plan as may be framed by the Board from time to time in conformity with relevant statutory provisions and SEBI guidelines as applicable will be excluded from the components of variable pay.

f. Description of the different forms of variable remuneration (i.e. cash, shares, ESOPs and other forms) that the Bank utilises and the rationale for using these different forms.

Variable pay means the compensation as fixed by the Board on recommendation of the Committee and approved by the Reserve Bank of India, wherever required, which is based on the performance appraisal of an employee in that role, that is, how well they accomplish their goals. It may be paid as:

- Performance Linked Incentives to those employees who are eligible for incentives
- Ex-gratia for other employees who are not eligible for Performance linked Incentives.
- Bonus for those staff members who are eligible for bonus under the Payment of Bonus Act, 1965.
- Employment Stock Option Plan (ESOP) for the eligible employees as approved by the Board.

As of now, Bank is not having a variable pay structure except for MD & CEO and Executive Director.

Table DF-16: Equities – DISCLOSURE FOR BANKING BOOK POSITIONS:

The Bank does not have Equities in Banking Book and hence not applicable.

Table DF17- DISCLOSURE OF COMPARISON OF ACCOUNTING ASSETS Vs. LEVERAGE RATIO

Leverage Ratio

Leverage ratio is a non-risk-based measure of all exposures for the Tier-I capital. The Leverage ratio is calibrated to act as a credible supplementary measure to the risk-based capital requirements. The Basel III Leverage ratio is defined as the Capital measure (the numerator) divided by the Exposure measure (the denominator), with this ratio expressed as a percentage. Effective from the quarter commencing October 1, 2019, the minimum leverage ratio shall be 3.50%.

$$\text{Leverage Ratio} = \frac{\text{Capital Measure (Tier I Capital)}}{\text{Exposure Measure}}$$

Table DF 17- Summary comparison of accounting assets vs. Leverage Ratio		
Item		(Rs. in Million)
1	Total consolidated assets as per published financial statements	193038.34
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	65490.61
3	Adjustment for fiduciary assets recognized on the Balance Sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure	(286.84)
4	Adjustments for derivative financial instruments	40.29
5	Adjustment for securities financing transactions (i.e. repos and similar secured lending)	0.00
6	Adjustment for off-balance sheet items (i.e. conversion to credit equivalent amounts of off- balance sheet exposures)	4677.64
7	Other adjustments	(66666.62)
8	Leverage ratio exposure	196293.43

Table DF-18: Leverage Ratio common disclosure template		
	Item	Leverage ratio framework (Rs. in Million)
On-Balance Sheet exposures		
1	On-balance sheet items (excluding derivatives and SFTs, but including collateral)	191862.34
2	(Asset amounts deducted in determining Basel III Tier 1 capital)	286.84
3	Total on-balance sheet exposures (excluding derivatives and SFTs) (sum of lines 1 and 2)	191575.50
Derivative exposures		
4	Replacement cost associated with all derivatives transactions (i.e. net of eligible cash variation margin)	2.31
5	Add-on amounts for PFE associated with all derivatives transactions	37.98
6	Gross-up for derivatives collateral provided where deducted from the balance sheet assets pursuant to the operative accounting framework	0
7	(Deductions of receivables assets for cash variation margin provided in derivatives transactions)	0
8	(Exempted CCP leg of client-cleared trade exposures)	0
9	Adjusted effective notional amount of written credit derivatives	0
